## **EXHIBITIONS IN BIBIANA**

### **THE LAND OF THE COMICS**

#### **Plavčík and Vratko – a funny horror for children**

Exhibition visitors can enter the black and white world of the comics in which fairy tale characters will be their guides and give tips on how to do good deeds and liberating acts in the world where anything that has been drawn is possible. The Land of Comics is introduced as a kind of graphic art drawing from a generally-known Slovak folk tale Plavčík and Vratko. The exhibition has been designed as an interactive journey that includes humor and horror during which the children, having completed various assignments, can break the spell over three towns. The journey takes everyone through a “valley of tears” to a pear tree with a snake suffocating its roots, to a well that has been taken over by a frog, and then to the golden hair of Vratko.

**When: 20. 1. – 19. 4. 2017**

### **ANDERSEN – A STORY TELLER TRAVELLING EUROPE**

Folk fairy tales certainly are a part of the intellectual wealth of Europe. They served as inspiration also to the most reputed story teller, the Danish writer H. C. Andersen. He visited many countries that are now European Union members during his European travels. The exhibition's time machine takes the visitors back to Andersen's times to join him on his trips and explore the fairy tales of the European countries. Part two of the exhibition is dedicated to the best known Andersen's fairy tales that inspired artists, writers and illustrators and, above all, animated film makers. The exhibition presents not only the book versions of Andersen's stories in various EU countries but also their film versions. The visitors can see numerous samples from animated films as well as other kinds of fun and plays and games; all in an inspiring beautiful artistically-presented setting by artist Martin Dubravay. Idea and screenplay by M. Mertová, visual setting and arrangement by M. Dubravay, dramaturgy by V. Marákyová

**When: 11. 10. 2016 – 26. 2. 2017**

## **BEYOND THE BORDER OF FAMILIARITY**
