THE UGLY DUCKLING'S TALE

Who am I? Where is my place in this world? Why did that happen to me?

Each of us knows those questions more than well - and this can be applied to young- and old-ones. Everybody also knows this tale by H. Ch. Andersen. The new approach to this story by Štúdio BIBIANA offers the chance of finding answers at least to some of them - in a sensible and humorous way.

Songs lyrics – Z. Pašuthová, music – J. Dobrákov, graphics and space –

N. Štefunková, director – M. Kecskéssová, cast – B. Kamenská and Š. P. Králik

A PENGUIN'S STORY

Antarctica, the southernmost place on earth — is full of extremes. There is this blinding white plain covered in snow and ice. Not a single tree or stalk of grass grows here... only that terrible and stormy wind is whistling around, sprinkling and spreading dust-like snow all over the place, often preventing you from even opening your eyes. Amidst this plain, a penguin is sitting. This one is sitting alone, without shivering once. Why is he sitting there... just so... motionless? Why does he not seek cover from the blizzard?

Simply, because he does not care - he is frost hardy.

This is a story about discovering the beauty of this icy island and the fact that even such a hardened animal like a penguin needs a woolly jumper to stay warm. This tale was inspired by a true story and the book by Tomiko Inui: The penguin babies Puk and Kuk. Performing of the dramatic piece was supported by Fund for the promotion of art in the form of the scholarship from the public sources. *Script and performance – M. Ryšavá, scenography – I. Macková, music – P. Creek Orgován.*

(For kids aged 3+)

...FAR, FAR AWAY

FATHERS (WORKSHOP)

Arts and literature performance with elements of author-reading, play and artistic installation. With the help of the lecturers, they will execute an artistic object inspired by the presented text Otcovia/Fathers. The communicated ideas of love, fear, help, conflict, joy, dream and forgiveness will be explained through lecturers and created illustrations. The project is supported by the FPU.

Authors and guidance: L. Paľo and D. Rušar

(For children from the age of 7)

THE WORLD ACCORDING TO MONDRIAN

The kids will sketch up a scene based on the principles of Neo-Plasticism, the information on which they get right in the exhibition (workshop-type with explanation) or right at the atelier. By reducing a simple drawing (sketch) into an abstract form, they will create such a composition on a squared, rhomboid or rectangular area. After learning, what a particular colour stands for, they will create a „quick“ picture and finally they would place it on a coloured background, creating their very own World according to Mondrian.

Theme and guidance – I. Abrahamfyová

(For kids aged 5+)

WHAT DO THE COLOURS TELL US

This workshop is based on the teachings by Johannes Itten and his theory of colours. The participants learn what the basic colours are and what their „derivatives“ are; what simultaneous

and complementary contrast mean; how we are affected by colours and what we can express through them.

Theme and guidance – I. Abrahamfyová
(For kids aged 5+)

HOME

Accompanied by an adult, the youngest visitors of BIBIANA will experience a reading from the book Home by Carson Elli. Singing and their own creativity will provide some bridging to the current Bauhaus-exhibition.

Author – J. Michalová and M. Halamíčková

WHO IS GROWING IN THE ORCHARD

This is another series of reading, singing, tasting and creating with the youngest kids. This time we will work with the book by Oksana Bula and Kateryna Mikhalitsyna "Who is growing in the orchard".

Headed by – J. Michalová and M. Halamíčková

(Programs for kids aged 18+ months - accompanied by an adult)

BEWARE - DEPOSIT OF STORIES!

The "Room of Reading" enables the kids to enter the space of stories, get along there and (using the objects and exhibits) - explore their origins, what preceded them and what made it finally into the stories and why. The kids will continue discovering the meaning(s) of the symbol-based language and its use in their very own stories.

Theme and guidance – T. Vráblová creative solution – Z. Mátyus

(For kids aged 5-16)

FROM EAR TO EAR

This is a creative program for parents with their kids aimed at "perception-development" by hearing. It is a reaction to the decreasing imagination and other adverse effects caused by the prevalence of visual impulses with children. This creative workshop (run in cooperation with the Slovak Radio and Television) exploits various forms of acoustic impulses actively involving the workshop's participants. *Workshop leaders: Beata Panáková and Timotea Vráblová*

(For kids aged 6 to 12)

ADVOCATES OF READING

This program targets 8- and 9-graders of primary and secondary-school students and tries to lead selected students to cultivated reading and developing a reading culture, helping young people to find their place in life. At the same time, it encourages teenagers to become active in their communities.

Workshop leader: Timotea Vráblová

(For a selected group of children)

READING IN THE BOOK'S SPACE

Workshop for parents, teachers, librarians and the broad public on how to work with younger and older "schoolagers", developing their habits of cultivated reading and deeper, more profound perception and understanding.

Guidance – T. Vráblová

(for adult visitors)

BOOK'S GATE OPEN

Series of workshops focusing on parents, teachers, pre-primary education teachers and librarians. The first workshop of this cycle called Modrý vrch (Blue Hill) deals with how to work with children from the youngest age in a focused, targeted way, how to stimulate their interest in books and how to encourage the internal motivation with babies and how all that affects the child's perception for preparing it for further steps on its way to a book.

Guidance – T. Vráblová

EXHIBITIONS AT BIBIANA

ABOUT BAUHAUS AND THE YOUNG DESIGNERS

In the German city of Weimar, a school focusing with arts & crafts was founded in 1919, which still influences modern and secondary schools throughout Europe.

This school, which was named Bauhaus (literally "build-house"), has laid the foundations of an artistic-technical field that we call "design" today. The authors of this exhibition on „Bauhaus and the young designers“ were inspired by this school and prepared some „workshoplets“, where the kids can play and impersonate young creators/designers, try on the costumes of the little Dadaist-theatre, compose some abstract pictures and built-up a Functionalistic house and even try to design an own car.
