THE MYSTERIOUS WORLD OF PUPPETS

This puppeteer festival accompanies the exhibition The Mysterious World of Puppets. In six performances, kids and adults get the opportunity of enjoying the art of traditional puppeteering. The audience will get also an insight into the poetics of traditional folk-puppeteering and the production of particular authors.

The fairy-tale's purpose is not to put kids to sleep, but rather to wake up and encourage adults to explain and teach the kids the patters this world works by. This is the motto of this festival and exhibition.

THE MYSTERY OF THE CASTLE TREASURE

(June 6–31, 2018 in the Vaults (Klenby) of BIBIANA)

The mystery of the castle treasure will introduce us into the mysteries treasure-hunting win myths, fairy-tales and legends.

The co-ordinator Timotea Vráblová, along with the scenographer Juliana Dubovská, created a Room of Reading (Izba čítania) in which the child roams its own micro-cosmos of reading, developing and enhancing its own perception and creativity. This Room of Reading supports and stimulates the kids in the habits necessary for deep and "contemplative reading". In this way, it will learn that it can "explore" and experiment on its own in those stories.

Theme and workshop management – *T. Vráblová. Creative solution – J. Dubovská.*

BOOK'S GATE UNLOCKED

The "Book's Gate Unlocked" for our youngest readers — offers a workshop-series for parents, primary education teachers and librarians. The first part named Blue Hill (Modrý vrch) deals with how to work with kids in a focused way, i.e. from their earliest age, when to start stimulating their interest in books, how to motivate toddlers and how does it effects the child's perceptivity, preparing it for "books" in its life.

Workshop leader: Timotea Vráblová

FROM EAR TO EAR

This is a creative program for parents with their kids aimed at "perception-development" by hearing. It is a reaction to the decreasing imagination and other adverse effects caused by the prevalence of visual impulses with children. This creative workshop (run in cooperation with the Slovak Radio and Television) exploits various forms of acoustic impulses actively involving the workshop's participants. *Workshop leaders: Beata Panáková and Timotea Vráblová*

(For kids aged 6 to 12)

ADVOCATES OF READING

This program targets 8- and 9-graders of primary and secondary-school students and tries to lead selected students to cultivated reading and developing a reading culture, helping young people to find their place in life. At the same time, it encourages teenagers to become active in their communities.

Workshop leader: Timotea Vráblová
