BEEKEEPER JOEY

Joey is really sad. In his tiny little house, he has everything he needs, but Joey is lonesome however and he is also not happy with the solitude around his tiny house. All that changes suddenly, after a swarm of bees strays into his place.

This is about reading for the kids (with some creative activities) - from the book by Simona Čechová, representing Slovakia in the BIB 2019.

ABOUT THE DOG, WHO LIKED THE BOY

This is a theatrical staging based on the book by Klára Jarunková of the very same title. It's about seeking a real friend and the question, what makes our lives really useful and why we need another person in life. Having a master - no! But having one's one human is a completely different story. This staging emerged within the Osmijanko-project and constitutes an accompanying activity of the exhibition "Our (and world-known) Klára Jarunková".

Guidance – S. Féderová

FROM ONE TOY TO ANOTHER

A well designed and manufactured toy supports and even develops the sense of beauty, purposefulness and empathy in us. Our exhibition starts with a re-paint of a painting by Pieter Brueghel, on which the kids can look for games that are still played today. Further they find here replicas of historic toys made according to archaeological findings, the iconic technical construction toy named "Merkur", (screws and perforated sheet-metal parts), which gets manufactured since 1920 a city from a big and colourful kit, a tiny house for the dolls and a Teddy-bear, but also plastic-toys from the last century by the

famous designer Libuša Niklová. They will learn to know toys designed by our contemporary designers and they can even invent and design their very own toy. This interactive toy-focused exhibition is BIBIANA's contribution to the Year of Slovak Design, which was proclaimed by the Culture Ministry of the Slovak Republic.

PLAYFUL HEAD

We got inspired for this exhibition by the beautiful book by the Czech authors David Böhm and Ondřej Buddeus: *Hlava v hlavě* (A head in(side) the head). The exhibition is virtually packed with interactive elements about this most important part of the human body - the head. You will learn here not only how different artists depicted it, how it is called by different people, how an idea arises in the head and how much the human brain weighs, but also what wrinkles are, what we have senses for, as well as why our eyes do not grow. You can even learn to draw a head here. So... explore and have fun!
