THE UGLY DUCKLING'S TALE

Who am I? Where is my place in this world? Why did that happen to me?

Each of us knows those questions more than well - and this can be applied to young- and old-ones. Everybody also knows this tale by H. Ch. Andersen. The new approach to this story by Štúdio BIBIANA — offers the chance of finding answers at least to some of them - in a sensible and humorous way.

Songs lyrics – Z. Pašuthová, music – J. Dobrákov, graphics and space – N. Štefunková, dramaturgy of the musical and arts parts from 2003 – K. Kosánová, director – M. Kecskéssová, cast – B. Kamenská and Š. P. Králik
(For kids aged 4+)

TIN-BOB AND HEDVIGA

Tin-Bob is the most-shiny tin-can in the factory. He is definitely very proud of him, clearly seeing his "starry" future ... He will be definitely filled with the most yummy fruit candies! But his conceitedness comes quickly to an end when learning that it finally turns out to be just ordinary dog-food. Moreover - an expired one. The lesson of this book is that what really counts is not how perfectly we look, but rather how we really are. The kids can make their very own tin-man along with the lady-illustrator Hedviga Gutierrez.

Guidance – H. Gutierrez

(For kids from the age of 6)

The principle of this game is very simple. We fielded 8 pairs of animated heroes and the participants will choose one winner each week.

At the end of this competition will be only one winner left = the most favourite Czecho-Slovak animated fairy-tale figure.

EXHIBITIONS AT BIBIANA

FROM ONE TOY TO ANOTHER

A well designed and manufactured toy supports and even develops the sense of beauty, purposefulness and empathy in us. Our exhibition starts with a re-paint of a painting by Pieter Brueghel, on which the kids can look for games that are sill played today. Further they find here replicas of historic toys made according to archaeological findings, the iconic technical construction toy named "Merkur", (screws and perforated sheet-metal parts), which gets manufactured since 1920 a city from a big and colourful kit, a tiny house for the dolls and a Teddy-bear, but also plastic-toys from the last century by the famous designer Libuša Niklová. They will learn to know toys designed by our contemporary designers and they can even invent and design their very own toy.

This interactive toy-focused exhibition is BIBIANA's contribution to the Year of Slovak Design, which was proclaimed by the Culture Ministry of the Slovak Republic.

PLAYFUL HEAD

We got inspired for this exhibition by the beautiful book by the Czech authors David Böhm and Ondřej Buddeus: Hlava v hlavě (A head in(side) the head). The exhibition is virtually packed with interactive elements about this most important part of the human body - the head. You will learn here not only how different artists depicted it, how it is called by different people, how an idea arises in the head and how much the human brain weighs, but also what wrinkles are, what we have senses for, as well as why our eyes do not grow. You can even learn to draw a head here. So... explore and have fun!

Theme and script – K. Kosánová; artistic & spatial solution – B. Peuch;

Dramaturgy – V. Marákyová

When: 18/2/2022 – 18/9/2022
