PROGRAM INFORMATION

A PENGUIN'S TALE

Antarctica, the southernmost place on the planet, features numerous extremes. It is a dazzlingly white plain covered in snow and ice, without a single tree, not a single stalk of grass, with scary whistling wind over many days - so that one scarcely can open the eyes. In the middle of this plain, we see a penguin sitting. He just sits and sits all the time, without moving a bit. Why is he just sitting so calmly? Why doesn't he hide from the snow? The reason is - that the penguin does not mind the cold, he is really hardened....

This is the tale of discovering the magic of this cold island, as well as of the fact that even a tough and hardened penguin needs a woollen sweat-shirt warming him up from time to time. This tale was inspired by a real story and the book by Tomiko Inui: The penguin fledglings Puk and Kuk. The production of this play has been supported from public funds - in the form of scholarship.

FAIRY TALE

„In this book by Ulrich Hub, three penguins have a quarrel on whether God exists or not - when suddenly a heavy rain starts, followed by the Noachian flood. Fortunately, a fat white dove flies in, bringing them tickets for Noah's Ark. The issue is however that there are only two tickets, but three penguins in total, being very close friends.“ Within the cycle At home with Bibiana (Doma s Bibianou), we bring you a lovely and comical story from the book: At eight o'clock on the Arc. So don't miss it ... and listen!

EXHIBITION AT BIBIANA

IN THE GINGERBREAD LAND

In this interactive exhibition, where the visitors get a lot of interesting facts on gingerbread history, they get to know exotic spices used for their baking - and then you can try distinguish them with your very own nose. The kids get to the gingerbread-land via a comics-tale about a little gingerbread-kid never experiencing Christmas before. This "gingerbreadling" got to know about Christmas from the "Vanilla-Fairy", who told it also a tale about it, but to make everything complete, she needs the tinkling of a bell — but the problem is that gingerbread-bells make no sound. So the "gingerbreadling" and the Fairy set out to the world to find the right tinkling. They travel the ocean and the space and finally make to the world of faulty gingerbreads. Though not being perfect, they too belong to this tale. Whether they find that tinkling-sound or not, the kids get to know in our Christmas exhibition.

The real gingerbreads for that exhibition were made by the gingerbread-aunties from the Slovak Union of Cooks and Confectioners.

B ... LIKE BIBIANA

This exhibition, dedicated to the "round" 30th birthday of BIBIANA, presents its individual creative departments, giving children the understanding of art over those years in a playful ways. This time, as well, we created a joyful, but first of all inspirational atmosphere being so typical for „Bibianic“ projects. The kids may find here e.g. a big picture of BIBIANA with little windows hiding various surprises, playing with filming-equipment within the space dedicated to the Biennale of Animation Bratislava (BAB), the will have fun with illustrations from the aforementioned Biennale, they will get to know our book-wonders and take a seat at a huge birthday table with various „creative dainties“. Finally they will have a look into the distant future of BIBIANA. They will simply find a big playroom here, with an atmosphere full of fantasy.

LET'S SHED SOME LIGHT ON THEATRE

This is an interactive exhibition at the occasion of the 100th founding anniversary of the Slovak National Theatre (SND).

The centre-point of this exhibition is the theatre-story, i.e. how theatre as such came into being. Step-by-step, the kids will get to know the things required for turning a text into a theatre production. They will learn the jobs of the director, stage-designer (scenographer) or the props-man. They will experience the spell und uniqueness of a theatre backstage, learn to know the beauty and complexity of those jobs, jointly creating the theatre-miracle. Finally, the kids will have the chance to become "theatre creators".

The scans and photos are from the Museum of the Theatre Institute. The performance photos are from the Documentation Collections of the Theatre Institute.
